

Mineral Builder 16-2-15

balanced fertility for plant health

homogeneous mini

GENERAL INFORMATION

- **Mineral Builder™ 16-2-15** is a homogeneous fertilizer that is balanced with a complete formulation of available secondary and micronutrients.
- **Mineral Builder 16-2-15** releases nutrients evenly over a period of 4-5 weeks at a rate of 0.5lbs of nitrogen per 1,000 ft².
- **Mineral Builder 16-2-15** is part of an effective environmental strategy to optimize plant health through balanced fertility.

GUARANTEED MINIMUM ANALYSIS

Total Nitrogen (N).....	16.0%
0.5% ammoniated nitrogen	
15.5% urea nitrogen	
Phosphorus.....	2.0%
Soluble Potash (K ₂ O).....	15.0%
Sulphur (S).....	5.0%

Calcium (Ca).....	4.3%
Magnesium (Mg)	0.8%
Iron (Fe).....	0.5%
Manganese (Mn).....	0.16%
Zinc (Zn)	0.18%
Boron (B)	0.30%
Copper (Cu).....	0.08%

SUGGESTED SPREADER SETTINGS SGN-140

To provide proper distribution, calibrate spreader before application.

Rate	Lely	Vicon
0.5	7.0	35

APPLICATION RATES:

Mineral Builder 16-2-15

Packaged in 50lb. (22.68 kg) bags.

	lb/1,000ft ²	kg/100m ²
Nitrogen (Actual)	.50	.24
Material	3.1	1.5
Lb/acre	136	
Bags/acre	2.7	
Kg/ha		150

MINERAL BUILDER HOMOGENEOUS MINI GRADE FERTILIZER 16-2-15

Mineral Builder

balanced fertility for plant health

16-2-15

homogeneous mini

FEATURES

Homogeneous Composition

16-2-15

Key secondary & minor elements

Mineral Builder Program™

Research & Development

BENEFITS

Even distribution of nutrients at low rates of application with minimal mower pick-up

Balanced nitrogen and potassium formulation to promote healthy stress resistant turf

Balanced formulation of available secondary and micronutrients provides a complete fertilizer

16-2-15 is the foundation of a research project promoting balanced fertility on golf course fairways

The mineral builder program is an investment in soil and plant health. Supported by research, mineral builder is an effective environmental strategy for professional turf management

DIRECTIONS FOR USE

- Apply only as directed. Apply 3.1 lbs of product per 1,000 ft.2 (.50 lbs. actual Nitrogen)
- Applications should be made at minimum intervals of 4 weeks.
- Apply 16-2-15 any time when the turf needs fertilizer, see technical sheet for application rates.
- Watering in is needed to assist in working the product into the turf.
- Allow 5-7 days before seeing a visual response from the application.
- Use a clean dry spreader. Do not leave unused product in a spreader.
- For information on heavy metals, please call 1- 866 – 499 -0659

STORAGE REQUIREMENTS

- Store in a clean, dry location.
- Partially used bags should be closed by folding over the open end and securing.
