# 10-2-20

**Greens**

## GENERAL INFORMATION

- Tru-prill™ 10-2-20 is a highly dispersible homogenous particle available in a greens grade for fine turf application.
- Dual controlled release nitrogen sources from ISO-B™ and Nature's Time™ provide consistent safe release for up to 8 weeks.
- Tru-prill™ 10-2-20 is formulated with secondary and minor elements to address the nutrient demands of fine turf grass.

# 10-2-20

## Greens

### FEATURES:

**Homogeneous Composition**

**10-2-20**

**Nature's Time™ and ISO-B™**

**Highly Dispersible**

**Non Burning, Low Salt Index**

### BENEFITS:

Even distribution of nutrients at low rates of application with minimal mower pick-up.

High potassium formulation with no urea added, for a slow, consistent nitrogen feed.

Dual action nitrogen package provides consistent nitrogen release through both hydrolysis and microbial degradation.

Tru-prill granules begin to disperse within minutes of irrigation for better nutrient dispersion and less mower pick-up.

Safe for use on fine turf.

### DIRECTIONS FOR USE:

- Apply **Tru-prill™ 10-2-20** any time when the turf needs fertilizer.
- Watering in is recommended to assist in working the product into the turf.
- When applying to finely mowed turf, mow for one day without buckets to reduce mower pick up.
- Use a clean dry spreader. Do not leave unused product in a spreader.

### STORAGE REQUIREMENTS:

- Store in a clean, dry location.
- Partially used bags should be closed by folding over the open end and securing.

### DISTRIBUTED BY:
