Greens

GENERAL INFORMATION

Tru-Prill™ 8-16-16 is a highly dispersible starter fertilizer with an all-purpose SGN of 90. The product has been specifically formulated to assist in the development of new seedlings. Soluble calcium is taken up primarily by growing roots and is essential for cell wall development. A balanced level of potassium serves to activate enzymes involved in photosynthesis and respiration, and will aid water regulation in plant cells. **Tru-Prill™ 8-16-16** containing 45% WIN will nourish the developing plant through to maturity.

GUARANTEED MINIMUM ANALYSIS

Total Nitrogen(N)**8.0%**
3.65% Water linsoluble Nitrogen*
1.0% Urea
3.35 % Ammoniacal

Sulphur(S)**6.0%**
Calcium(Ca)**4.5%**

Available Phosphoric Acid (P₂O₅) **16.0%**
Soluble Potash (K₂O)..... **16.0%**

*3.65% units of slowly available nitrogen from isobutylidenediurea and plant-based organic sources.

NUTRIENT SOURCES:

Isobutylidenediurea, soybean meal, alfalfa meal,urea, mono ammonium phosphate, sulphate of potash, calcium carbonate.

APPLICATION RATES:

Tru-prill™ 8-16-16
Packaged in 50 lb. (22.68 kg) bags.

	lb/1,000ft²		kg/100m²	
Phosphorous (actual)	.50	1.0	.24	.48
Material	3.1	6.25	1.5	3.0
lb/acre	136	272		
Bags/acre	2.74	5.4		
Kg/ha			152	304
Bags/ha			6.74	13.3

SUGGESTED SPREADER SETTINGS

SGN-90

To provide proper distribution, calibrate spreader before application.

Rate (lbs/N)	Accupro	Scotts R8	LELY
.50	I 1/2	I	4
1.0	K	J 1/2	6

Settings calibrated to 100% overlap.

Tru-prill™ Greens Fertilizer 8-16-16/45% W.I.N.

EVERY NUTRIENT • EVERY GRANULE

8-16-16

Greens

FEATURES:

Homogeneous Composition-120 SGN

8-16-16

4.5% Plant Available Calcium

Nature's Time™ and ISO-B™

47% Water Insoluble Nitrogen

Highly Dispersible

Non Burning, Low Salt Index

BENEFITS:

Even distribution of nutrients at low rates of application with minimal mower pick-up.

This starter formulation has balanced phosphorus and potassium with a maintenance level of nitrogen.

Calcium is taken into the plant through the meristematic tissue of growing roots and is essential for cell wall development.

Dual slow release nitrogen package provides consistent nitrogen release in any growing condition.

More W.I.N. per pound of nitrogen allows this product to be used throughout the season. Minimal nitrogen loss to leaching and volatilization..

Tru-prill granules begin to disperse within minutes of irrigation for better nutrient dispersion and less mower pick-up.

Safe for use on fine turf.

DIRECTIONS FOR USE:

- Apply **Tru-prill™ 8-16-16** at the time of seeding or as a correctional product for phosphorous and potassium deficiencies.
- Irrigate following applications to existing turf for 10-20 minutes. When applying to finely mowed turf, mow for one day without buckets to reduce mower pick up.
- When applying to finely mowed turf, mow for one day without buckets to reduce mower pick up.
- Use a clean dry spreader. Do not leave unused product in a spreader for an extended period of time.

STORAGE REQUIREMENTS:

- Store in a clean, dry location.
- Partially used bags should be closed by folding over the open end and securing.
